

Child's Name:

Child's Date of Birth:

ABOUT MY BABY/TODDLER

This questionnaire allows you to tell us about your baby or toddler – including the great things you want to share with us – and to identify any concerns that you currently have about them. This is **not** meant to be a checklist of all health problems, but a tool to help us learn more about the services that may be helpful for you.

Tell us about your family and circle of support.

What does your family do together for fun? What traditions do your family enjoy – for example, holidays or events?

Who does your family like to spend time with?

What makes your child happy? What does your child like to do?

How does your child like to move around or stay active?

Please answer every question by checking “yes” or “no”. If “yes”, then please indicate to what extent it impacts your child’s ability to participate in everyday activities. There are 15 items in this questionnaire.

I am concerned about my child's:

01. Movement, or how they move their body

- **YES**  **If YES, does this impact on their ability to participate in everyday activities?**
- Not at all - A little - Somewhat - A lot
